SUSTAINABILITY REPORT 2017 ANNEX

SUSTAINABILITY REPORT ANNEX

About the report

Following Dufry's commitment towards providing more visibility over its annual non-financial performance, and building on the steps taken in 2016 with the commissioning of our first Materiality Assessment to identify the sustainability topics, Dufry has prepared a Sustainability Report that is aligned with the Guidelines of the Global Reporting Initiative (GRI) and its Core Option Standard. Reporting in accordance with this international standard permits a more transparent and comparable approach to information and facilitates the tracking of sustainability performance indicators.

2017 sets the starting point for Dufry GRI reporting and, although this year's report is prepared to meet the GRI Standards: Core Option, we have disclosed additional indicators and topics to those listed and recommended in the Core option to reflect the specific company approach and strategy.

The report is divided in two main sections. The main one – included in the annual report – gives the reader a wider view of Dufry, its relationship with its main stakeholders and its vision on sustainability. The second part of the report is available in the sustainability section of the corporate website, <u>www.dufry.com</u>, where this document is hosted and which contains information presented in several tables with quantitative indicators as per the GRI Standard indications. Both documents present data as of 31^{st} December 2017.

For easier tracking, you may find a list of the whole set of indicators in the GRI Index also available on the website. That Index cross references GRI indicators and page numbers and serves as a guide to where the information on each topic may be found – either in the annual report, on the corporate website or in this annex document.

Scope

As Dufry operates stores in 64 different countries, as a starting point we have opted for a varied scope of the report; for the general profile and most of the GRI indicators we have included information on the whole group. This information is either provided on an aggregated basis for the whole group or broken-down by five geographical divisions:

- Division 1 Southern Europe & Africa
- Division 2 UK, Central & Eastern Europe
- Division 3 Asia, Middle East & Australia
- Division 4 Latin America
- Division 5 North America

More information about each of the Divisions and countries included may be found on pages 46-65 of the annual report.

For specific indicators, the information is limited to Dufry's most significant operations (by revenue and/or relevance to the business), which have been group as follows:

- Northern Europe (UK and Switzerland)
- Southern Europe (Spain and Greece)
- North America (United States and Canada)
- Latin America (including our operations in Brazil, Mexico and Argentina)

The sample selected responds to criteria on quality of data available and represents over 70% of the total headcount of the group.

202-1 RATIOS OF STANDARD ENTRY LEVEL WAGE BY GENDER COMPARED TO LOCAL MINIMUM WAGE

| | NORTHERN EUROPE | SOUTHERN EUROPE | NORTH AMERICA | LATIN AMERICA |
|-----------------------------|--------------------|--------------------|------------------|------------------|
| RATIO (1.00 = MINIMUM WAGE) | | | | |
| Male | 1.18 | 1.16 | 1.30 | 1.44 |
| Female | 1.18 | 1.16 | 1.30 | 1.44 |

Note: In the Canton of Basel (Switzerland) where Dufry's HQ is located, there are different levels of minimum wages that depend on skills and experience. Hence, Basel has been omitted for the calculation of the Northern European group.

201-2 FINANCIAL IMPLICATIONS AND OTHER RISKS AND OPPORTUNITIES DUE TO CLIMATE CHANGE

It is not possible to determine whether if the changes in existing rules initiated by climate change will involve changes to business processes associated with significant costs. Global regulation that could massively affect the predicted growth of international air traffic (with expected annual growth rates of 4-5% until 2035) is rather unlikely due to the fact that it would necessarily need to be accompanied by restrictions for individual countries.

Stricter regulatory requirements due to climate change could eventually be an opportunity for some of our operations. As indicted in page 86 of the 2017 Annual Report, Dufry has retail shops in 20 of the 37 carbon neutral airports.

202-2 PROPORTION OF SENIOR MANAGEMENT HIRED FROM THE LOCAL COMMUNITY

At Dufry, we believe talent has no nationality. Our operations and offices however are very much linked to where they are based and this is reflected in the composition of our staff at all professional levels. As a general practice, and where possible, Dufry incorporates members of the local communities to its management team as this gives a better understanding and, as a result, a better running of the operations.

| | NORTHERN EUROPE | SOUTHERN EUROPE | NORTH AMERICA | LATIN AMERICA |
|---------------|--------------------|--------------------|------------------|------------------|
| IN % | | | | |
| Locally hired | 84.23% | 97.27% | 100% | 62.65% |

204-1 PROPORTION OF SPENDING ON LOCAL SUPPLIERS

The food, confectionery and catering category (which represent 17% of Dufry 2017 global sales) has by large the largest proportion of their global procurement budget spent on local providers, with approximately 67%. This is followed by the Luxury category (14% of 2017 global sales), with 21% of their budget spent on local providers; and Wine & Spirits (16% of the 2017 global sales), with 20% of their budget spent on local brands. Tobacco goods (11% of the 2017 global sales) accounts for 2% while Perfume and Cosmetics (32% of the 2017 global sales) spends approximately 1.5% on local providers.

401-1 NEW EMPLOYEE HIRES AND EMPLOYEE TURNOVER

Note that Southern European airports have a very marked seasonal pattern and traffic. Over the summer season – from April until October – these airports concentrate over 80% of the annual traffic. Staff is hence reinforced over each summer period. Wherever possible, Dufry employs the same staff year after year. However, these seasonal employment contracts are accounted as new hires in the table below and therefore also impact the turnover figures. A similar pattern is observed in some of the airports included in the Latin American sample.

410-1 SECURITY PERSONNEL TRAINED IN HUMAN RIGHTS POLICIES OR PROCEDURES

Dufry does not employ in-house security personnel of its own. This is largely due to the fact that it's retail stores are overwhelmingly located in airports and on cruise lines (94% of 2017 global sales), where security is already strict and generally provided by the airport authority or cruise line itself. To the extent that security personnel are required and are contracted, Dufry expects its security service contractors to act in a manner consistent with local and national laws as well as with applicable human rights standards. Dufry outsources this service to trustworthy providers, regulated by local governments and with a reputable track record of services, including the respect for human rights. We have not recorded for the period any case of human rights or abuse by the security personnel hired by Dufry.

416-1 ASSESSMENT OF THE HEALTH AND SAFETY IMPACTS OF PRODUCT AND SERVICE CATEGORIES

We are committed to ensuring that every product we sell is safe. Our procurement teams focus on preventing issues occurring by sourcing products from a reliable supply base. Dufry does not sell own-brand products.

Some of the products that Dufry sell are heavily regulated – especially alcohol and tobacco but also beauty and food. Dufry complies with all regulations and rules related to the products sold in the countries where it operates.
