Management Information System (MIS)

Avolta Group has an internal management information system that consists of financial statements, performance indicators and risk management. Information to management is provided on a regular basis according to the cycles of the business: sales on a daily and weekly basis; income statement, cash management and key performance indicators (KPI) including customer, margins and investment information, balance sheet, cash flow and other financial statements on a monthly basis. Management information is prepared on a consolidated basis as well as on a regional basis. Financial statements and key performance indicators are submitted to the entire Board of Directors on a quarterly basis. These quarterly updates also include non-financial information such as, but not exclusively, general business updates, progress on the implementation of the company's sustainability strategy as well as status updates from the Global Internal Audit & Investigations Department.

Board meetings and CEO reports

Outside of Board meetings, each member of the Board may request from the CEO information concerning the course of business of the Company and the Group and, with the authorization of the Executive Chairman, about specific matters.

The CEO reports at each meeting of the Board of Directors on the course of business of the Company and the Group in a manner agreed upon from time to time between the Board and the CEO. Apart from the meetings, the CEO reports immediately on any extraordinary event and any change within the Company and within the Avolta Group to the Executive Chairman.

Internal Audit

The Global Internal Audit department provides independent risk-based and objective assurance reviews and performs loss prevention analysis to group companies through different activity streams. Key risks are identified and corresponding processes and controls included in the annual risk auditing plan. The department prepares a

See section 6.5 below.
